Re: Pool Memberships

Approval is requested to contribute family pool memberships to the organizations listed below in exchange for recreation services. These not-for-profit organizations contribute sponsorships, facility use, drug abuse education, and general youth educational and recreational services. The pool memberships are used by these organizations for various fund raising events and create a marketing opportunity for the Community Pool. The value of the membership ranges from \$30-\$135 depending on the number in the family, the average is \$80.

Number of Certificates:

2-The Moose Lodge #370

- Sponsorship of Independence Day Concert
- Support of senior center exercise room
- Funded the lighting of Moose field at Community pool park

2- The Kiwanis Club of East Aurora

- Sponsorship of annual Easter Egg Hunt
- Sponsorship of concerts, playground equipment, built community pool

1-The Boys and Girls Club of East Aurora

- Provides free gym time / space to recreation department
- Provides drug / alcohol programming for Aurora youth

RE: Recreation Department Contributions

As you know, each year the Town Board approves the list of pool membership certificates that the Recreation Department gives to local not-for-profits. These donations are used by the community organizations for fund raising events and create a marketing opportunity for the Town's community pool.

To improve the record keeping for these, and any other donations, our auditor has recommended that someone from my office issue the certificates and that they be numbered, in duplicate and collected by my office upon redemption. Nicole Serra has agreed to assist with this procedure. She will purchase a book of multi-copy and numbered certificates. When Peggy needs to provide the certificates for the various organizations, she will request them from Nicole. Nicole will then check the list of approved donations and issue the certificate, in numerical order and leaving the name blank. When the certificate is redeemed to the Recreation Department, the name of the redeemer will be filled in and the redeemed certificate including the name, shall be returned to the Supervisor's office to be kept with our copy.

Please let me know if you have any questions.

Re: Purchasing of Paper Products

We are in need of a vendor to purchase our paper products from for 300 Gleed Avenue. I obtained pricing from HJS Supply Company (a sister company to our janitorial service) and Martha obtained pricing from our 3 primary vendors which include Eaton, S & B and Grainger. Attached is a summary of HJSs pricing and the lowest of the other 3 vendors. HJS is clearly lower.

I respectfully request the Town Board's approval to purchase paper supplies from HJS Supply Company. This will also reduce time spent by our employees because the employee providing our cleaning service will be able to track the inventory and order directly from HJS.

Please let me know if you have any questions.

Memo

From: Patrick Blizniak

Re: Vacant land on Blakely Rd., O.D.A.

I am respectfully submitting an ODA for the Town Board's Review. The ODA is located on Blakely, just north east of the Boise Rd. intersection and consists of 1.98 acres+/- . There is a 50 foot easement with plans for a 20 foot driveway to access the property. The lot in question sets 500 feet back and has an easement agreement in place. A topography map of the property reveals a gradient downhill toward the northeast approaching a pre-existing pond. There is a "hammerhead" turnaround proposed at the house. My only concern in regard to fire safety is the distance off the road (500+ feet). Perhaps a dry hydrant or a sprinkler system may be appropriate. This can be your condition of approval, if you so wish.

I recommend the approval of this ODA for the following reasons:

1. The land to be developed is of such character that it can be used safely for building a home.
2. Access roadway/driveway will be a minimum of 20 feet wide, composed of hardpan composite, included into a 50 foot utility easement.
3. The Easement Agreement is created and signed by both parties.
4. The Petitioner is only building one single family home at this location.
5. The accumulated groundwater produced from this home will be collected and diverted to the northeast of the property, spilling into a pre-existing pond.

PART III - DETERMINATION OF SIGNIFICANCE (To be completed by Agency)

INSTRUCTIONS: For each adverse effect identified above, determine whether it is substantial, large, important or otherwise significant. Each effect should be assessed in connection with its (a) setting (i.e. urban or rural); (b) probability of occurring; (c) duration; (d) irreversibility; (e) geographic scope; and (f) magnitude. If necessary, add attachments or reference supporting materials. Ensure that explanations contain sufficient detail to show that all relevant adverse impacts have been identified and adequately addressed. If question D of Part II was checked yes, the determination of significance must evaluate the potential impact of the proposed action on the environmental characteristics of the CEA.

- Check this box if you have identified one or more potentially large or significant adverse impacts which **MAY** occur. Then proceed directly to the FULL EAF and/or prepare a positive declaration.
- Check this box if you have determined, based on the information and analysis above and any supporting documentation, that the proposed action **WILL NOT** result in any significant adverse environmental impacts **AND** provide, on attachments as necessary, the reasons supporting this determination.

**A RESOLUTION TO BE SUBMITTED BY
LEGISLATORS RATH, MILLS, DIXON, HARDWICK & LORIGO**

Re: Opposing the New York SAFE Act of 2013

WHEREAS, on January 14, 2013, the NY SAFE (Secure Ammunition and Firearms Enforcement) Act of 2013 was introduced to the New York State Assembly and Senate; and

WHEREAS, the New York State Senate passed the thirty-nine page overhaul of the state's gun law the same day, while the assembly considered the bill a few more hours before passing it on January 15, 2013; and

WHEREAS, the Governor signed the bill into law the same day, on January 15, 2013; and

WHEREAS, the celerity of passage of this law is remarkable for the state legislature and Governor, though lamentably not admirable in this particular instance; and

WHEREAS, although certain aspects of the law appear to be thoughtful approaches to reduce instances of gun violence involving New Yorker's, others appear to be knee-jerk reactions made without the benefit of appropriate contemplation at best, or, at worst, disingenuous fee grabs cloaked as security measures; and

WHEREAS, the Webster provision's stiffer penalties for individuals who murder first responders in the course of their duties is appropriate and overdue; and

WHEREAS, the provision protecting information about registered gun owners is an effective way to reduce information to individuals who seek to commit crimes against an individual because of his or her status as gun owner, or not having the protection provided by a gun; and

WHEREAS, the provisions addressing mental health appear to be thoughtful efforts to address individuals who may use a weapon for illegal and violent purposes; and

WHEREAS, similarly, the safe storage provisions appear to be measures to keep weapons away from individuals who are shown to be more likely to use weapons for illegal and violent purposes, as well the provisions giving judges discretion to require surrender of a weapon by a person against whom an order of protection is granted; and

WHEREAS, the provision prohibiting the possession of a gun on a school bus or on school grounds without the written authorization of the school appears to be an effective way to separate children from guns, although probably not from people who seek to use guns for illegal and violent purposes; and

WHEREAS, unfortunately, the tougher assault weapons ban is overly inclusive and ineffective at reducing gun violence by individuals who use guns legally; and

WHEREAS, for example, the Remington 870, classic pump-action shotgun, a very common shotgun used by sportsmen, can be interpreted to fit the new definition of "assault weapon;" and

WHEREAS, further, unlike other provisions, this particular provision does not focus on individuals who use, or are a substantial threat to use, guns illegally and for violent purposes ; and

WHEREAS, also, reducing the ammunition magazine size from ten to seven does little to reduce gun violence by individuals using guns illegally, and nothing to reduce gun violence by law abiding gun owners; and

WHEREAS, similarly, statewide recertification of handguns does not reduce the use of guns by individuals who seek to use them illegally; and

WHEREAS, rather, it has the appearance of being an effort by New York State government to fill its coffers with increased fees, without providing for a mechanism to fund county clerks to accommodate the increased workload resulting from this law; and

WHEREAS, the Second Amendment, "A well regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed," continues to be a part of the United States Constitution; and

WHEREAS, New York's SAFE Act appears to contain provisions which infringe upon the Second Amendment rights of its people; and

WHEREAS, as such, the New York SAFE Act should be repealed, revisited, carefully considered, revised and implemented in a manner that is respectful of the Second Amendment rights of New Yorkers.

NOW, THEREFORE, BE IT

RESOLVED, that the Erie County Legislature hereby supports repeal and revision of the New York SAFE Act of 2013; and be it further

RESOLVED, that a certified copy of this resolution be forwarded to Governor Andrew Cuomo, Assembly Speaker Sheldon Silver, Senate Majority Leaders Dean Skelos and Jeffrey Klein and the local delegation to the New York State Legislature.

Fiscal Impact: None.

**Association of Erie County Governments
Resolution to Amend the NY SAFE Act**

WHEREAS, The Association of Erie County Governments who represents the voice of the people, is made up of 25 Towns, 16 Villages and 3 Cities that represent the County of Erie, in the State of New York with a population of approximately 1,000,000 people, and

WHEREAS, On Monday January 14th, 2013 the rights under the second Amendment of our Constitution was infringed on without due process, and

WHEREAS, The Gun Control Bill (S.2230) known as NY SAFE Act was rushed through the Senate & Assembly without a single Public hearing or input from the various Law enforcement agencies located around our State, and

WHEREAS, Even the State lawmakers did not have time to review the bill as presented leaving questions about implementation and regulation of this new law, and

WHEREAS, This law should focus on increasing penalties for criminals who use firearms to harm and threaten law abiding citizens and address the issues of mental illness related to violence, and

WHEREAS, The Association of Erie County Governments realizes that NY SAFE Act, gun control law must be repealed and replace the restrictive parts of the enacted law, and

NOW THEREFORE BE IT RESOLVED, that the Association of Erie County Governments urgently asks Governor Andrew M. Cuomo & the Legislative leaders to suspend this law as soon as possible and to look at all of the aspects of gun control using the proper legal procedure to bring about a law that will address gun control in a more logical manner, focusing on the real issues related to gun control – a law that will strengthen the effect on public safety and not infringe upon our constitutional rights.

RESOLVED, that a certified copy of this resolution be forwarded to:
Honorable **Governor Andrew M. Cuomo**, Honorable Senate Majority Leader **Dean Skelos**, Majority Leader of Independent Democratic Caucus **Jeff Klein**, Honorable Senate Minority Leader Andrea Stewart-Cousins, Honorable Speaker of the Assembly **Sheldon Silver**, Honorable Leader of the Assembly Joseph Morelle, Honorable Minority Leader of the Assembly **Brian Kolb**, and the Western New York Delegation and Erie County Legislators

Ms. Joleen Jeffe and Aurora Town Board:

I have completed a visual review, as well as a discussion with a NYSEG engineer with regards to the repair or replacement options for the Community Pool electrical meter. After careful consideration, I feel it necessary to advise you that this meter replacement may become very involved.

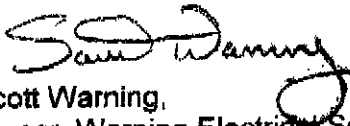

I have outlined my estimate to the best of my ability. I have attempted to touch on all possible scenarios. An exact cost estimate is impossible due to the many variables that are likely present in this type of repair. I am offering the attached estimate on a worse-case scenario basis. Please be aware that even more additional costs could be incurred depending on what is exposed during our repair work.

I will work closely with Town personnel and will keep you informed of details [as well as projected costs] as they develop.

I am available for further discussion and/or clarification, if necessary. Please do not hesitate to contact me with questions/concerns regarding my estimate.

Thank you for the opportunity to quote you this project.

Sincerely,

Scott Warning,

Re: Community Pool

This estimate is for replacing existing meter box at the Community Pool. Included is as follows.

- Remove existing old style meter.
- Cut back burnt wire and crimp into new meter. Estimate based on wire having adequate length [after cutting] to accommodate crimp.
- Re-pipe existing galvanized pipe into building main power junction.
- All work inspected. Electrician will set up all appointments with Electrical Inspector and Power Company.

Total Estimate [labor, material, inspection]: \$2,000.00 - \$2,500.00*

*not including possible additional work below

This meter replacement will be difficult due to the size/style differences in current meters from the existing old style. In addition to placing the new meter properly, I feel that when the damaged/burnt wire is removed, the remaining wire will be too short to crimp. This will then involve an additional phase of electrical work.

Additional:

- Cut existing galvanized pipe down lower to allow adequate access to good wire.
- Provide proper crimp and outside junction box.

The above additional work is labor intensive. I anticipate needing 1-2 days to complete. Depending on how the existing galvanized conduit comes apart, and what is revealed, there may be additional phases of electrical work needed. This could involve pulling a new line from utility pole to building. I am concerned that the age/condition of the underground line will require it to be replaced. Once the line is exposed, I will be better able to provide a plan/cost for repair or replacement.

Additional:

- Estimate based on electric being shut down for 2 days. Please advise if back-up power is necessary.
- Estimate based on Town providing all digging.

Ballpark Additional Estimate [labor, material]: \$3,000.00 - \$3,500.00
