FIRST RESPONSE

PREMIUM LIQUID ANTI-ICING & DEICING SYSTEM

4 IN 1

**ANTI-ICE
SLURRY
PRE-WET
GRANULAR**
COVERAGE UP TO 3 LANES

The First Response System is Henderson's premium 4-in-1 system. This neatly packaged system is fully enclosed, constructed of stainless steel and easily drives material using dual counter-rotating 7" augers. The dual augers also handle mixing duties for the slurry application, ensuring salt crystals are 100% saturated and activated prior to leaving the hopper. The First Response System easily adapts to varying road and weather conditions, allowing the driver to adjust on the fly from the convenience of the cab.

LIQUID APPLICATION SYSTEM

**ANTI-ICE
DUST CONTROL
& MORE**
COVERAGE UP TO 3 LANES

Henderson's LAS is a max capacity liquid application system. Using adjustable spray tips and metered flow rates, the system can be dialed in to eliminate waste. Ideal as a high capacity anti-ice system, the LAS also excels at a number of other tasks: dust control, weed control, water transportation, plant watering, soil stabilization and even fire control. The system was designed to quickly slip in and out of existing dump bodies.

Professional Grade Salt Brine Made Easy

The BrineXtreme Pro makes continuous salt brine production simple. Connect to power, connect to water, fill the hopper with rock salt, hit start and you're making professional grade salt brine. It really is that simple.

Before entering the mid-range class of brine makers loaded with batch making systems, a full evaluation of existing models was conducted. The results revealed several deficiencies, including: low volume production rates, unreliable accuracy of brine concentration, labor intensive production process and difficulty discarding un-dissolved material.

The BrineXtreme Pro is an easy to operate workhorse that delivers: true plug and play installation, a 4.67 cu. yd. salt hopper, production rates up to 6,000 GPH, salt concentration accurate to 0.001 SG, 100% automation and repeatability, protected mechanicals, 135 sq. in. opening for clean out of large solids, splash free brine transfer, intuitive 6" LCD touch screen display, data logging, storage tank level monitoring, UL Listed salinity control and more.

When you need professional grade salt brine fast, without the headache or hassle, look no further. The BrineXtreme Pro is brought to you by...
